

AURORA®

3500 Series

Model 3560 ASME/ANSI B73.1M

Industrial Process Pumps

The Aurora Model 3560 was designed to perform in the toughest industrial applications whether in the chemical, petro-chemical, mining, pulp and paper, consumer products or general industry.

If you are considering an ANSI pump for a motralec application, look to Aurora Model 3560

4 rue Lavoisier, ZA Lavoisier, 95223 HERBLAY CEDEX

Aurora Model 3560 Groups 1, 2 & 3

- Capacities to 7000 G.P.M. (954 m³/hr)
- Heads to 725 Feet (221 Meters)
- Temperatures to 650°F (343°C)
- Pressures to 375 PSIG (4998 kPa)

Model 3560-1 5 ASME/ANSI Pumps

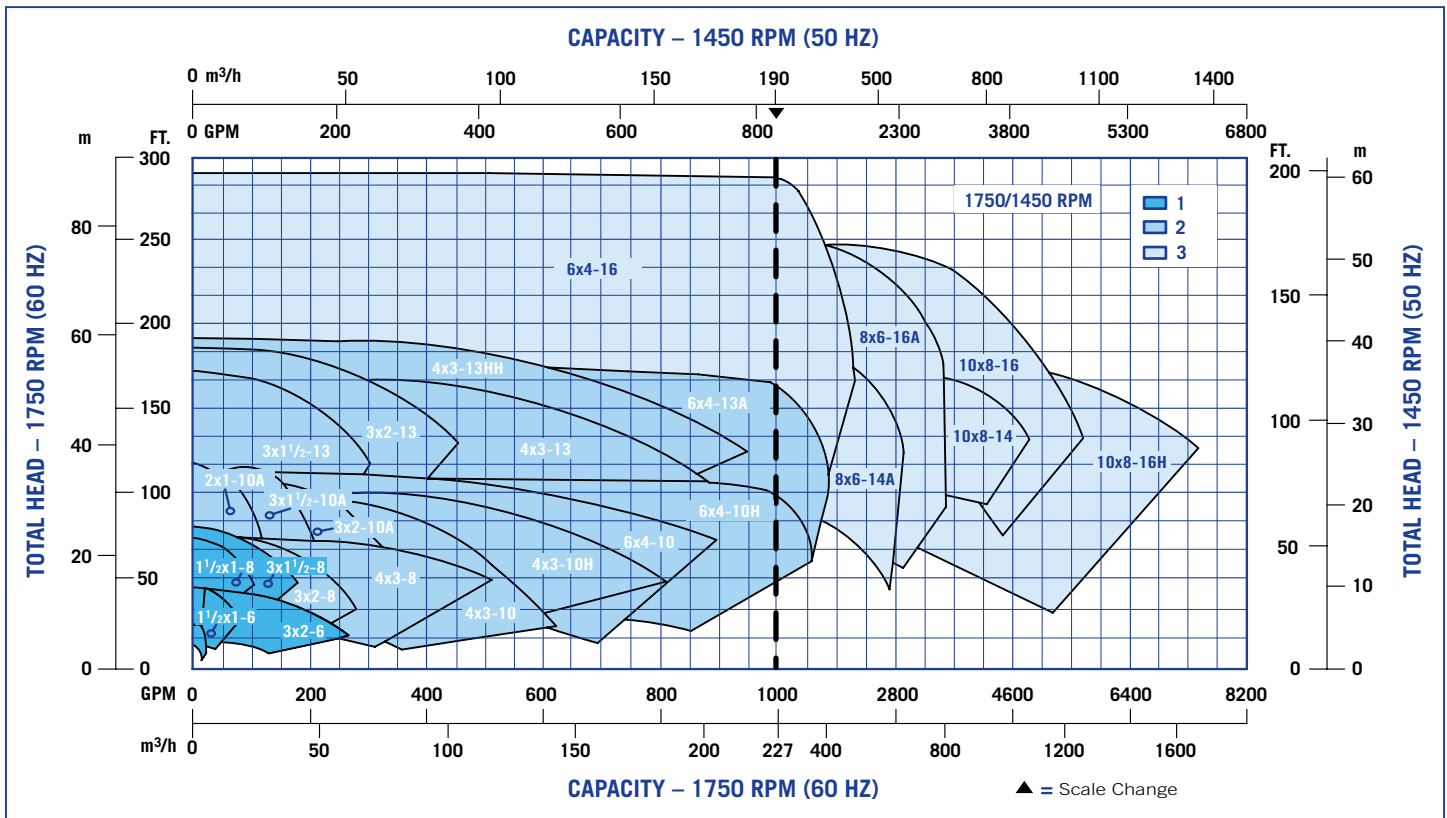

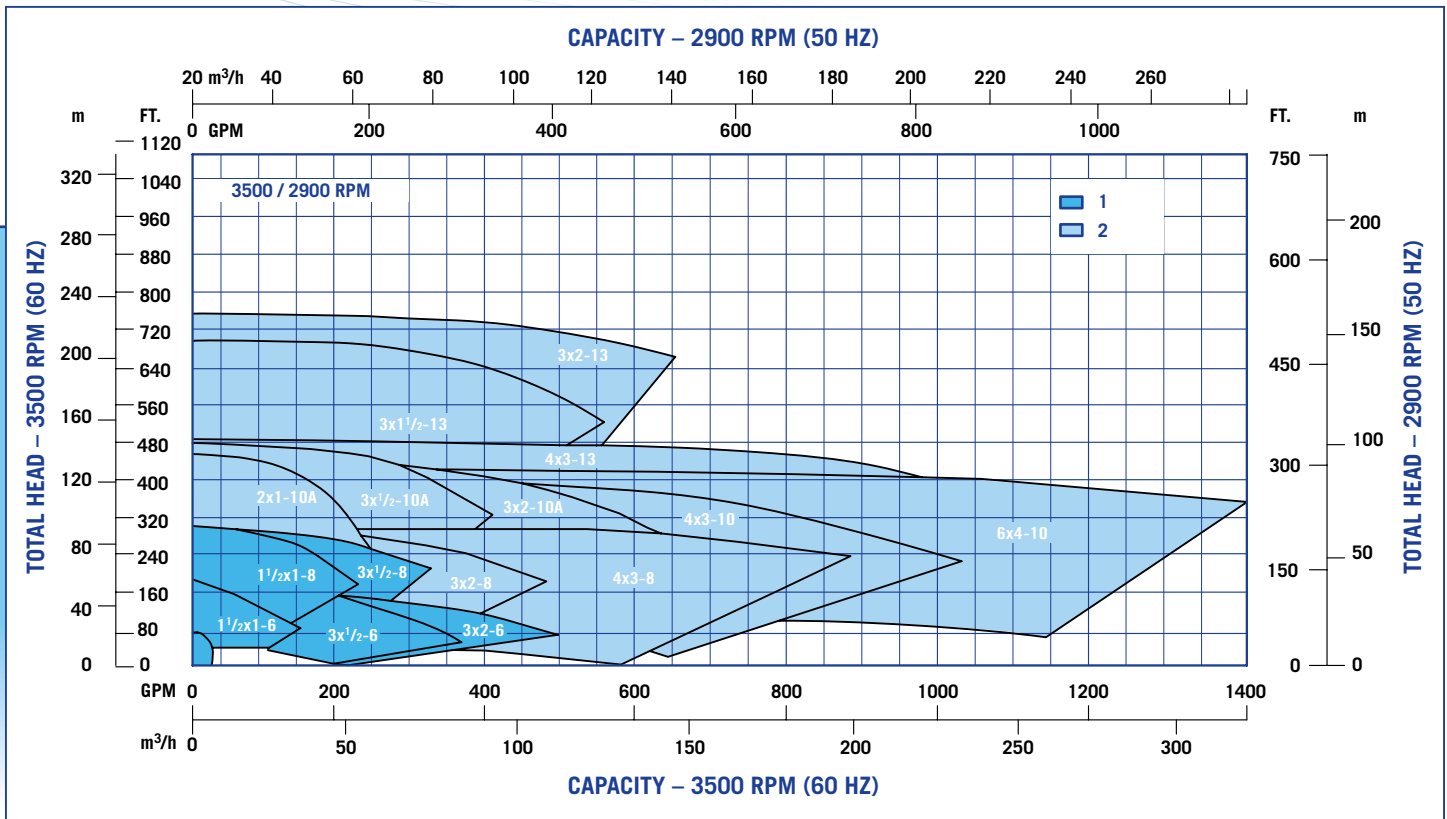

Model 3560-2 14 ASME/ANSI Pumps

Model 3560-3 6 ASME/ANSI Pumps

The Aurora Model 3560-Groups 1, 2 & 3 were developed with the standard features required to withstand the most difficult applications and maximize mean-time-between-failures (MTBF).

Model 3560 Pump Performance

Model 3560 Features

The Model 3560 power and wet ends were developed with the standard features required to withstand the most difficult applications and maximize mean-time-between-failures (MTBF).

Lip Type Oil Seals

- Prevents external contaminants
- Lower oil temperature
- Optional Labyrinth seals

Dramatically improves bearing life.

Lubrication Flexibility

- Oil Flooded
- Oil Mist
- Greased

Maximum lubrication options.

Oversized Shaft

- Shaft deflection less than .002 in. per ANSI B73.1M
- Decreased Vibration

Significantly increases both seal and bearing life.

Heavy Duty Bearing

- Designed for maximum hydraulic loads
- Optional Duplex (40°/40° angular contact) thrust bearings

Bearings can perform under the toughest conditions.

External Impeller Adjustment

- Optimizes energy consumption
- Reduces repairs
- Simple external adjustments

Long-term energy and repair savings.

Large Capacity Oil Sump

- Cooler oil temperature
- Better heat transfer

Increased bearing life.

Large Sight Glass

- Assures proper oil levels
- Allows monitoring of oil condition

Helps increase bearing life.

Magnetic Drain Plug

- Removes magnetic particles

Increases bearing life.

Enclosed and Fully Open Impeller

Fully Open

- Back pump-out vanes
- Reduced radial/thrust loads
- Lower seal chamber pressure
- Double the wear area of a closed impeller

Designed for the toughest applications including solids handling, stringy materials, abrasives and corrosives.

Enclosed

- Low seal chamber pressure
- Lower thrust loads
- NPSHR values are lower
- Impeller adjustment in shop

Enclosed impellers have enhanced performance and maintenance advantages.

Heavy Duty Casing

- Class 150 flanges with Class 300 casing wall thickness
- Self-venting
- Back Pull-out design
- Integral cast feet
- Serrated flange surfaces
- Standard Class 150 FF and optional Class 150 RF, 300 FF/RF

Designed for increased reliability, ease of maintenance and maximum life.

Sealing Options

- Packing
- Conventional Single/Double
- Cartridge Single/Double

Sealing options to accommodate most any fluid and temperature combinations.

Positive Sealing

- Fully confined gasket
- Protects alignment fit

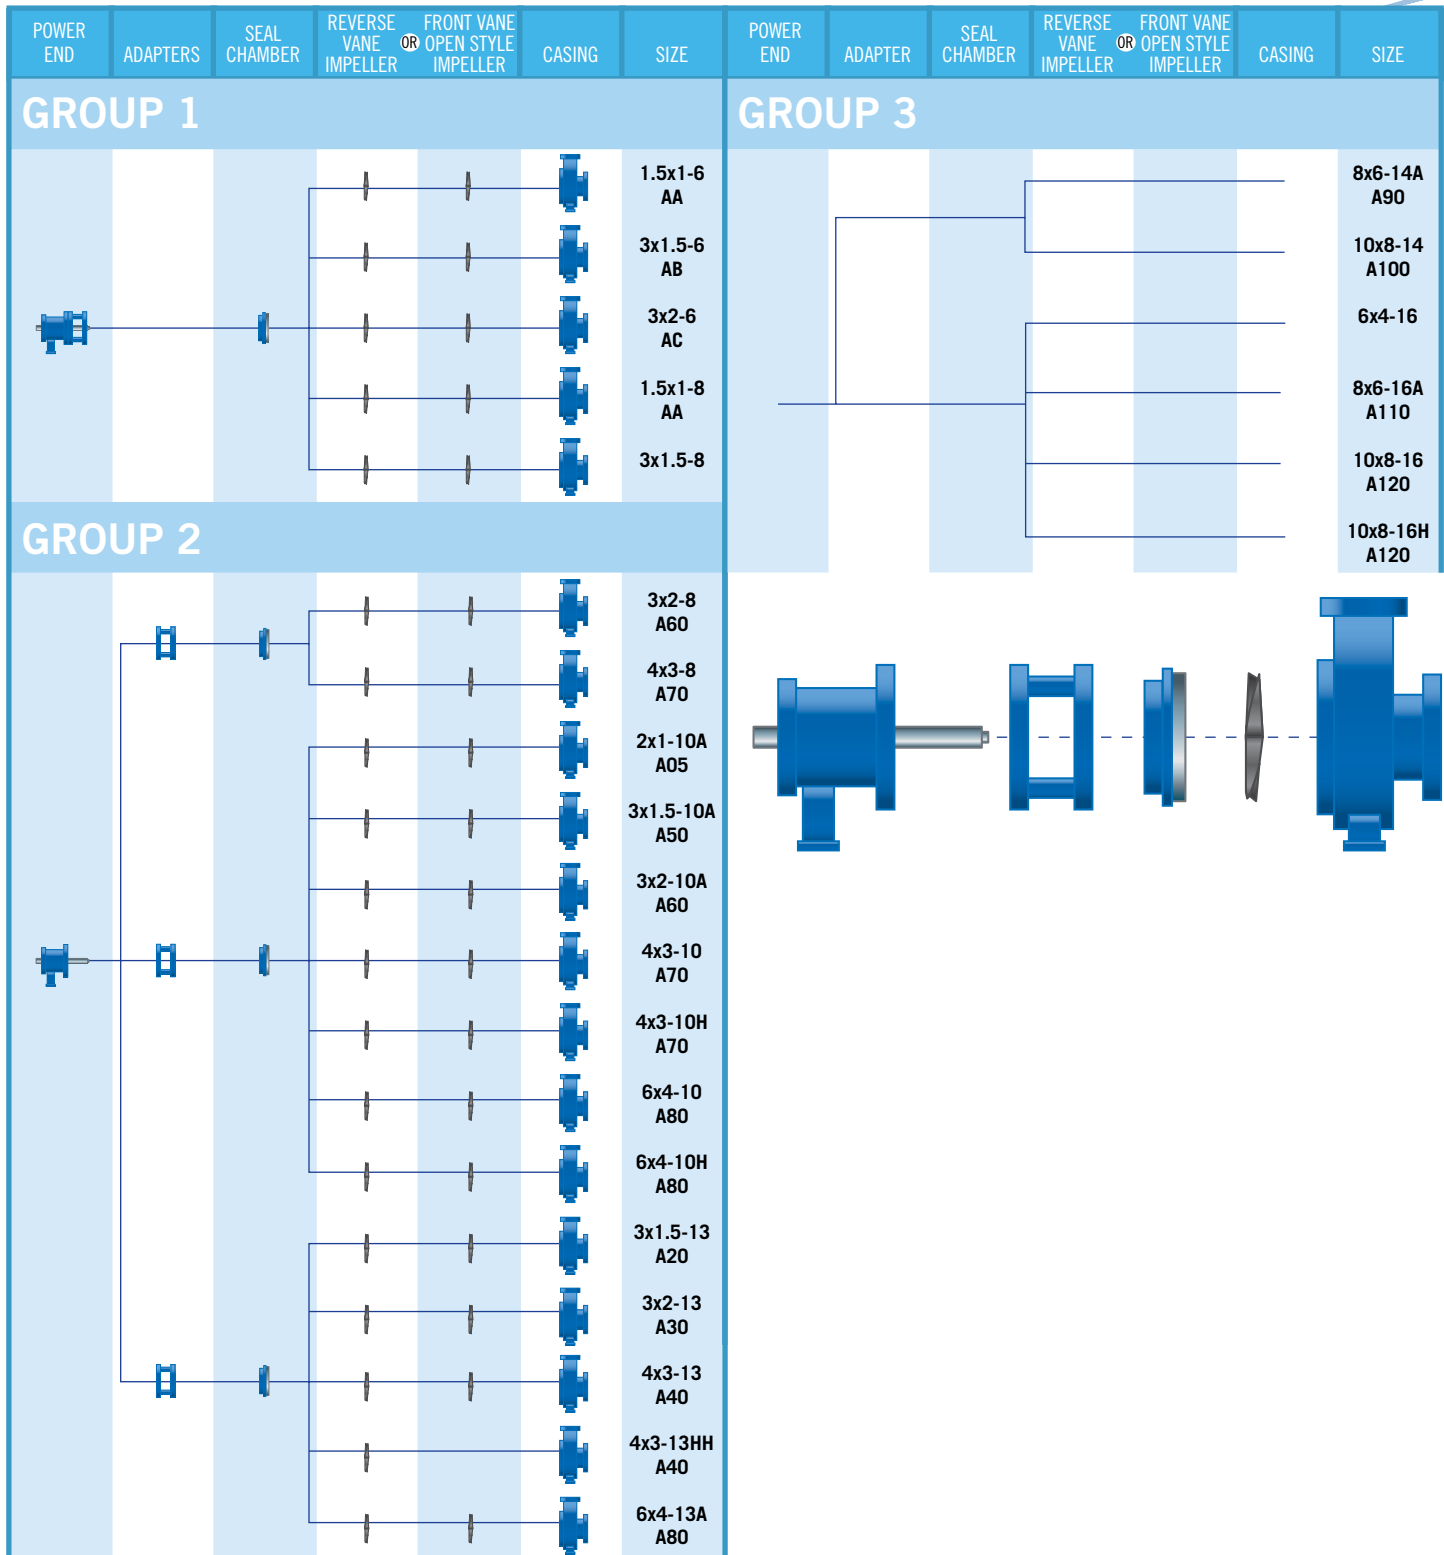

Provides ease of maintenance and increased safety.

Engineered Seal Chambers

- Standard Bore
- Large Bore
- Taper Bore / Modified flow

Designed to provide optimum seal environment.

Model 3560 Modular/Dimensional Interchangeability

Model 3560 Parts & Material Composition

Item Number	Req' d Per Pump	Part Name	All Steel	All 316SS	All Alloy 20	All CD4MCu	All Titanium	Hastelloy B&C

* Group 1 – HD₂ applies to 3 x 1½ - 8 only.

Group 2 – HD₁ applies to 3 x 2 - 8, 4 x 3 - 8, 2 x 1 - 10A, 3 x 1½ - 10A, 3 x 2 - 10A, and 4 x 3 - 10.

HD₂ applies to 4 x 3 - 10H, 6 x 4 - 10, 6 x 4 - 10H, 3 x 1½ - 13, 3 x 2 - 13, 4 x 3 - 13, 4 x 3 - 13HH, and 6 x 4 - 13A.

3500 Series Model 3560 Options

The Aurora Model 3560 has a broad range of engineered options and upgrades that will support a variety of process requirements and meet most any fluid processing application.

Drivers

- Electric Motors
ODP / TEFC / XP
- Variable Frequency Drives

Oil Temperature Control

- Bearing Frame Cooling Coil

Seal Flush / Cooling

- Most ASME/ANSI B73.1M seal
flush and cooling plans available

Mounting Baseplates

- Fabricated Steel per
ASME/ANSI B73.1M
- Cast Iron in compliance with PIP
- Heavy-duty epoxy resin based
polymer composite to
ASME/ANSI B73.1M

Couplings and Guards

- OSHA approved coupling guards
- Various coupling options

Process Temperature Control

- Jacketed Casings
- Jacketed Seal Chamber

The AURORA family of pumps has the right pump for your industrial application

Regenerative Turbine | Condensate
Boiler Feed | End Suction
Split Case | Sump
ASME/ANSI

PUMP CATEGORY	Maximum Capacity Range*		
	Flow – GPM/M ³ /hr. (meters cubed/hr.)	Head – ft./m.	Temp. – °F/°C
ASME/ANSI	4200 / 953.4	725 / 220.9	-100-650 / -73-343
Regenerative Turbine	50-150 / 11.4-34.1	700-1,200 / 213-366	212-500 / 100-260
Condensate	150-180 / 34.1-40.9	170-270 / 52-82	190-200 / 88-93
Boiler Feed	100 / 22.7	575 / 175	210 / 99
End Suction	140-4,500 / 31.8-1,022.1	55-790 / 17-41	225-300 / 107-149
Split Case	400-15,000 / 90.8-3,406.9	500-1,000 / 152-305	275-300 / 135-149
Sump	100-1,200 / 22.7-272.5	40-180 / 12-55	180 / 82

* Capacity range indicates multiple series in one pump category. See product sheets for complete specifications.

Since its founding in 1919, Aurora has become a leading supplier devoted to manufacturing a wide variety of pumps and systems for an ever-expanding variety of markets and applications. Prime examples of our industrial applications include process water supply, spray booth, cooling water supply, transfer and recirculation pumping equipment.

Aurora's commitment to excellence goes beyond the product line, as we're dedicated to keeping customers up-to-date on the latest developments in flow technology. From Aurora's broad selection of pumps and related products, Aurora's design engineering programs assist with selecting the best pumps and systems along with providing pump drawings and specifications. These programs save valuable time in the selection and evaluation of pumps and systems.

Contact your authorized Pentair Industrial Pumps distributor for more information on our entire industrial pump offering.

NOTE: Aurora Pump reserves the right to make revisions to its products and their specifications, and to this bulletin and related information, without notice.
