

PRESSURE BOOSTER STATIONS

7' x 10' ABOVE GROUND STATION

Gorman-Rupp's 7' x 10' Above Ground Pressure Booster Station is a complete system, ready for immediate installation and hookup to power and piping.

The low silhouette and color of the Quonset type fiberglass enclosure blend in with surrounding landscaping.

Fiberglass enclosure resists corrosion, mildew, fungus and mold. Two-way sliding cover provides easy access to all equipment for maintenance or service. Vandal-resistant door hardware and padlockable sliding cover are available for added security. The 7' x 10' stations include up to three (depending on horsepower) pumps with up to 6" discharge, and capacities to 1000 GPM on single operation.
