

NKV 10 / NKV 15 / NKV 20

MULTISTAGE CENTRIFUGAL PUMPS WITH VERTICAL AXIS

CIVIL AND INDUSTRIAL PRESSURIZATION UNITS

Vertical multistage centrifugal pump suitable in medium and large water supplies.

It is ideal for pressure sets, boiler feed and hot water circulation, conveying condensate and cooling water, fire fighting and washing systems, supplying drinking water and feeding pressurised tanks, sprinkler and spraying irrigation systems.

All the parts in contact with liquid are stainless. AISI 304 stainless steel internal pump body and AISI 304 stainless steel ULTEM, impellers, pump shaft and base liner.

Cast iron external pump body treated with ataphoresis, cast iron support.

"Cartridge" silicon/silicon mechanical seal exempt from maintenance.

Connected to the motor with a rigid coupling.

Motor protection: IP 55.

Insulation class: F.

Standard voltage:

three-phases 230-400 V / 50 Hz up to 4 kW included. three-phases 400 V Δ / 50 Hz on the top of 4 kW.

Operating range: from 4 to 29 m³/h with head up to 249 meters.

Pumped liquid: without solid or abrasive substances, not viscous, not aggressive, not crystallised and chemically neutral, close to water characteristics.

Liquid temperature range: from -20°C to +90°C.

Maximum ambient temperature: +40°C.

Maximum working pressure: 25 bar (2500 kPa).

Installation: fixed, vertical mounting.

Special version on demand: different voltage supply and/or feeding frequency 60 hz version EFF 1 motor, and anti-deflagrating version.
