

## KS - SWITCHGEARS

### Application

The KS switchgears can be customised individually depending on requirements. This enables standard fittings such as heating, alarm lights, potential equalisation bars and locking cylinders to be customised individually as required. Standard versions with common controls are pre-assembled and complete the HOMA switchgear programme.

### Complete pre-assembled switchgears

including the following modules:

KS-H1	Heating
KS-A23.(1)	Alarm lights 230V
KS-SZY	Locking cylinder
KS-POT	Potential equalisation bar
KS-VS320	Weatherproof housing (as indicated) or
KS-EHFB	Weatherproof housing (as indicated)
