## Pompes à moteur ventilé économiques (pompes simples)

### Description de la série Wilo-CronoLine-IL-E

Modification de la gamme

#### Construction

Pompe simple à moteur ventilé et régulation électronique de construction Inline avec raccord à bride et adaptation automatique de la puissance

#### Domaines d'application

Pour le pompage d'eau de chauffage (selon VDI 2035), de mélanges eau-glycol ainsi que d'eau froide et de refroidissement sans matières abrasives dans les installations de chauffage, d'eau froide et d'eau de refroidissement

#### Étendue de la fourniture

- Pompe
- Notice de montage et de mise en service

#### Dénomination

Exemple	<b>IL-E 50/170-7,5/2-R1</b>
<b>IL-E</b>	Pompe Inline avec régulation électronique
<b>50</b>	Diamètre nominal DN du raccord de tuyau
<b>170</b>	Diamètre nominal de la roue
<b>7,5</b>	Puissance nominale du moteur $P_2$ en kW
<b>2</b>	Nombre de pôles
<b>R1</b>	Exécution sans capteur de pression

#### Caractéristiques techniques

- Plage de température admissible de -20 °C à +140 °C
- Alimentation réseau 3~400 V, 50 Hz ; 3~380 V, 60 Hz
- Classe de protection IP 55
- Diamètre nominal DN 40 à DN 80
- Pression de service max. 16 bar

#### Particularités/Avantages du produit

- Moteurs de série selon la technologie IE2 avec rendement accru
- Economies d'énergie grâce à une adaptation électronique intégrée des performances hydrauliques
- Commande aisée grâce à la technologie du bouton rouge et à l'écran
- Différents types de régulation  $\Delta p-c$ ,  $\Delta p-v$ , PID et n-const. (Mode réglage)

- Large plage de vitesse de rotation (4 pôles : 380–1 450 tr/min, 2 pôles : 750–2 900 tr/min)
- Interfaces analogiques 0–10 V, 2–10 V, 0–20 mA, 4–20 mA
- Interfaces en option pour la communication bus grâce aux modules IF embrochables
- Pilotage de pompes doubles intégré
- Deux relais de signalisation configurables pour reports de marche et de défauts
- Comportement d'erreur configurable adapté aux applications de chauffage et climatisation
- Verrouillage d'accès au niveau de la pompe
- Protection moteur intégrale intégrée (KLF) avec déclencheur électrique
- Fonctions et commande identiques à Wilo-VeroLine-IP-E
- Protection anticorrosion de haute qualité grâce à un revêtement cataphorèse
- Alésages d'écoulement des condensats de série

#### Matériaux

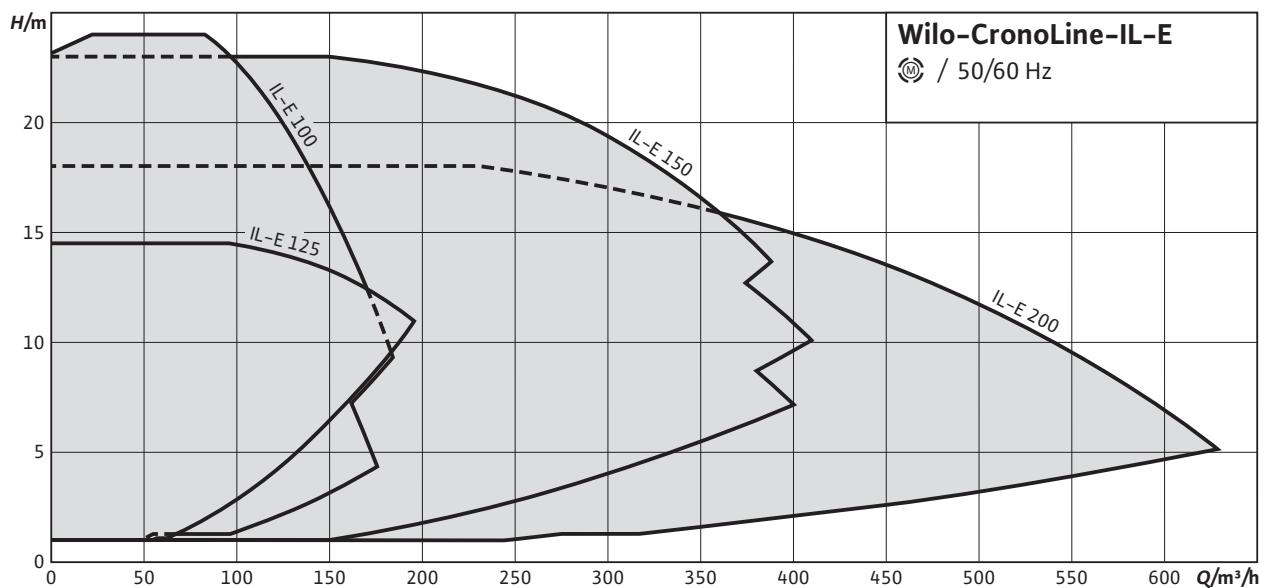

- Corps de pompe et lanterne : EN-GJL-250
- Roue
  - exécution standard : EN-GJL-200
  - exécution spéciale : G-CuSn 10
- Arbre : 1.4122
- Garniture mécanique : AQEGG ; autres garnitures mécaniques disponibles sur demande

#### Description/construction

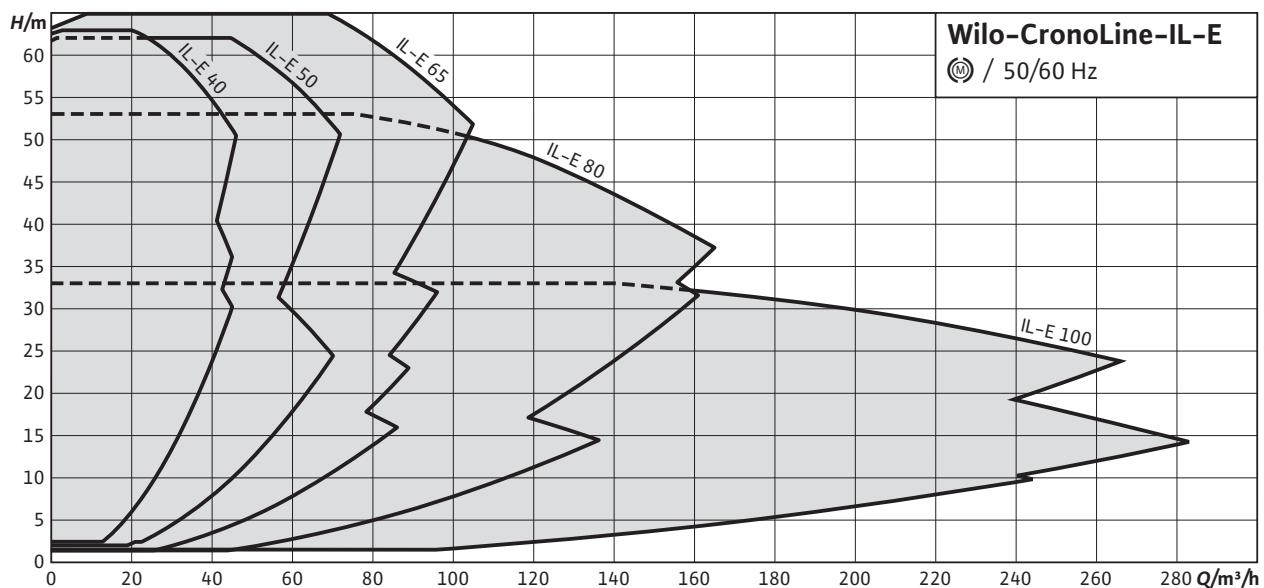

- Pompe monocellulaire basse pression à un étage construction Inline avec
- Garniture mécanique
  - Raccord à bride
  - Lanterne
  - Accouplement
  - Entraînement avec régulation de vitesse électronique intégrée
