# MAXventowlet

### Product specification

The model series impresses with its low noise emissions, boasting an improvement of up to 12 dBA compared to the previous models. Thanks to the unique ZAMid® high performance composite material, these light blades are corrosion-free and perfectly suited for medium pressure ranges. The modular system offers a high level of adaptability with different blade materials, housing lengths, or number of blades. This bionic axial fan is available with both AC and EC technology (ECblue). The MAXventowlet model series complies with the current ErP Directive and ATEX category 2 and 3.

> Model selection

Technical data	
Maximum air flow	up to 144,500 m <sup>3</sup> /h
Maximum pressure increase	up to 2,200 Pa
Permitted medium temperature	-60°C to +120°C
Sizes	14 sizes available from 315 mm to 1400 mm

### Motor concepts

**ECblue technology**  
EC116 / EC152  
Power range  
Up to 5,40 kW

**Explosion protected certified motors**  
on request

**Internal rotor motor IEC**  
Up to 45 kW (different on request)

### Customer benefit

- Versatile applicable through
  - high modularity
  - wide temperature range
  - wide range of motors (also in EX)
- Reduction of operating costs through biomimetic aerodynamics
- Lower acoustics
- Explosion-proof design possible
- Can be used worldwide thanks to numerous certifications (incl. VDE, UL, CCC, UKCA, CE)

### Typical applications

Power Plants

Wind Energy

Process and Industrial Refrigeration

Petrochemical Technology

Drying Technology

Cooling Tower

Noodles, Pasta, Coffee, Tea, Spices and Tobacco

Marine Applications

### Air performance range depending on motor technology

- with ECblue
- with AC motor
