Product range centrifugal fans

1/206

ZAsilo

Product specification

The ZAsilo combines years of agricultural expertise with German quality. The result is energy savings of 30% compared to a 2-pole AC standard fan – without loss of ventilation performance for your grain silo. The ZAsilo is designed for extreme conditions and combines a perfectly balanced fan impeller with a quiet, high-performance motor in a pest- and corrosion-resistant housing. The ZAsilo provides complete control with ramp-up function and requires virtually no starting current – perfect for single-phase power supply. Thanks to its light and compact construction, it is even suitable for problem-free one-man installation.

Directly online to the model range

> Model selection

Technical data	
Maximum air flow	up to 10.000 m³/h
Maximum pressure increase	up to almost 2.200 Pa
Permitted medium temperature	-25°C to +50°C
Electrical connection external rotor	EC with integrated controller
Sizes	3 sizes: 250 mm, 315 mm and 400 mm

Motor concepts

ECblue technology

EC090 / EC116 / EC152

Power range:

0.7 - 4.4 kW

ZAsilo

Customer benefit

- Fan consisting of robust and durable components
- Ideal for outdoor use directly on the silo

Typical applications

Storage Technology

Air performance range depending on motor technology
