

3-A and Food Grade Pumps

FROM THE MILTON ROY FAMILY OF PRODUCTS

Custom pumps that are 3-A approved and 3-A compliant are available in the MacRoy, mRoy and MilRoyal family of pumps. Available with stainless steel motors and heads, these products work well in food, beverage and pharmaceutical applications where exact dosing requirements exist.

3-A approved products have quick-release heads and tri-clover fittings, and come with the 3-A emblem. 3-A compliant are subsets that are suitable for sterile applications with reduced options and reduced cost.
